A large container ship is shown from a high-angle perspective, sailing on the dark ocean at night. The ship is heavily loaded with multi-colored shipping containers. The ship's deck and superstructure are illuminated by bright lights, creating a stark contrast with the dark sea and sky. A full moon is visible in the upper left corner of the frame, casting a soft glow on the water's surface. The ship is moving towards the right, leaving a white wake behind it.
